This All Electric Refrigeration Unit was created to meet market demands as an affordable, environmentally-conscious, all-electric stationary refrigeration unit. Designed for storage trailers, the unit was developed using an exclusive re-conditioning process that transforms a diesel-powered transport refrigeration unit into an all electric stationary unit that is:

- Quieter and cleaner than diesel-powered storage units
- Safer for the environment
- Designed for a wide range of cooling applications
- Powered by a hermetic reciprocating electric compressor
- Priced competitively

Customers

- Refrigeration unit dealers
- Trailer OEMs
- Trailer leasing companies

Developed by seasoned transport refrigeration industry veterans, this All Electric Refrigeration Unit satisfies a niche need within the transport refrigeration industry. It allows for affordable, reliable storage of refrigerated products and is designed for a wide range of cooling applications.

The All Electric Refrigeration Unit is only available in our high performance model. The unit features a new hermetic reciprocating electric compressor that is UL, CE and CC certified and a new 5 hp fan motor. The unit is available in preselected voltages of 208-230V 3ph and 460V 3 ph.
